## About This Game

[Grand Prize Winner of the 2014 Indie Game Maker contest.](#)

Magic is a curse. A plague upon the world and those that live in it. Those that are born with this curse unwittingly sap the mana from the earth they stand in. In order to prevent these abominations from draining away the world's lifeblood, they are locked away in a castle in an isolated dimension. It is in this castle that the cursed are to remain, removed from society so that their

---

magic does not harm normal people. They are to be kept here for the rest of their miserable lives.  
At least, that's the way it should have been...

Suddenly, a loud crash is heard. A young girl, kept apart from the rest of the castle, looks up from the ground. The magical barrier that prevented her escape slowly dissipates. Standing up, she pushes open the gate and finds her first taste of freedom. Guide her as she teams up with a renegade mage boy to search for the truth behind the castle, her unique magic, and a way to escape.

## Features

- A simple, but deep Spell Fusion system that allows for lots of experimentation.
- A heavy atmosphere made from a somber soundtrack, terrifying enemies, and a powerful tale.
- Simple puzzles that rely on each character's field abilities.
- A variety of locations to explore.
- A twist on traditional turn-based combat via MP charging.
- Discover the tragic stories of the castle's inhabitants by piecing together bits of information found throughout the adventure.
- 3 different endings affected by your actions.

remnants of isolation. remnants of isolation steam. remnants of isolation walkthrough

Nice update; gives a whole new game mode as you can switch between the 2018 and 2019 modes.. Train Simulator: CSX C30-7 Loco Add-On \u2014 Initial thoughts on this DLC add-on. Rather well detailed model locomotive and rolling stock. I love the "Pro" series and this model is no exception. I get a buzz from the engine cold start up and as the C30-7 pulls forward, you get a feel for the flow of power through this mighty Dash-7 model. A lot of auxillary functions work as well, mainly from the In-cab, but thats normal for Pro series. Externally the CSX C30-7 looks great and from In-cab view, the same high level of detail is applied. I would highly recommend this TS2017 DLC.. Since the overwhelming success of "DEEP SPACE WAIFU" which is a game that's been on my wishlist since release I got a bit relieve of stress for this water down copycat game call space girls.

You planet lack women and it's up to you to save your planet. You must find and stripe those giant space girl of their cloth and capture them, take them to your planet, mate with them so your civilization would continue on....

Well that's the cover story anyways. In truth this is a basic bullet hell top down shooter game with the objective of removing girl's cloths. Not quite appropriate for kids but young adult will enjoy this greatly. Like I said before this game lack the depth of Deep space Waifu but it does have power ups, lives, bosses and can be quite a challenge for new comer to bullet hell game.

The bullet pattern themselves are really simple and there are just 4 type of regular enemy and the boss bullet pattern wasn't that complicated anyways. The only thing is the speed of this game is quite fast and your ship's hit box is large too. Than again it's nothing a regular human being cannot handle.

Quick one hour finish if you good with bullet shooter since there are only 22 levels in total. 11 girls will be stripped of their clothes. One level for regular cloth and one level for underwear for every girls.

5/10 for a quick enjoyable shooter that lack depth. If you got spare money buy Deep space Waifu instead of this one. But you this fall somehow fall into your library be sure to play and enjoy it!

PS: changed the rating from 7/10 to 5/10. changed the thumbs up to thumbs down. This game is not nearly as good as DEEP SPACE WAIFU now that i played that game.. This game has some elements of a metroidvania with backtracking with new abilities you unlock. But it gets annoying to use certain ones and doesn't control well enough.

The text in this game is way to big that sometimes it will just take up the entire screen while you are playing the game and you have wait till it disappears till its comfortable to keep playing.

Also changing to different forms to progress through the areas costs one heart every time you change your character and I would love to know why that's the case cause if your confused and don't know which form to use as your cycling through them you then realize you are about to die in one hit and can make the game frustrating when that happens constantly. I haven't gotten far to tell if this would happen but what if you get in a situation where you need to change to different forms and if you don't have enough health at one point you might be stuck, just a random statement of how annoying that is.

3V10, I don't recommend this game at all.. Another garbage tier retro RPG on Steam. It's not even surprising anymore since it's full of them out here.. The developer is very keen to make this game good. In my original review I cited some issues with the English and he has since fixed them with my help.

Elsewhere, there are Solid puzzles and interesting gameplay.

Good artwork and sound design as well.

Certainly worth your time for \$2.

<https://www.youtube.com/watch?v=IB-z6sTKaWc>

(Full Disclosure:I have now helped with parts of this game so may be unbiased. I did pay for this game myself however.). Great competitive match 3 type game, plays in real time, it's great fun and very addicting.. Here is my gameplay video:

---

I really enjoyed this game so far. Great turret defense game. I can tell I'll be playing it to completion. Similar game style to Kingdom Rush. Biggest difference between the 2 would be the setting and style. It's set into the future, where you have to defeat robot armies! Good selection of towers. Has typical castable spells. Good tutorial introducing and explaining new things as you unlock them. Graphics are decent. Has 2x speed to move the game faster, and ability to send waves early; 2 highly coveted features for modern TD's. \$2.99 was a steal. Honestly, still worth the \$5.99 if you really like TD's.

EDIT: The more I play this, the more thumbs down I feel. It's a really fun TD game, but the difficulty scales very quickly and over the top. You'll eventually be searching YouTube and Google for hours to beat 1 level, just to find out there wasn't enough players of the game to bother to make videos and help. You'll find 1 here or there, but nothing consecutive.. Probably the deadest game in existence it has 0 players everyday and a peak of 5 and that was probably on because people like me got the free code for it in a pc gamer magazine, please dont buy this♥♥♥♥♥

---

Very Good game!!! Awesome physics and skill level adjustments for any level pilot.. It's a really fun game!. May 2019: Chances are you are seeing commercials of this for the switch, and thinking "Wow this looks amazing! I hope it's on Steam!". And it is.

This is a sim game. Where you level your stats, build a character and try and meet social goals. The pixel art is fantastic, the music is excellent. The English translation is great. Without spoilers, the goal of this game is a build-up to a message about you the player and Ringo the character. The ending may be frustrating but it is, in my opinion a good one. But due to the amount of time and effort put required for getting there, combined with the many, many bugs this game has in it still, I would not recommend this game.

I must also add that there is little documentation out there about this game. If you want to look up "How do i do this..." there is a strong chance nothing will be available for it.

Buy at your own discretion.. I tried and tried to like this model, because visually it's quite appealing. But the plane is not able to be flown due to its tendency to pull very hard to the left. Don't buy it, waste of your money.. Open Windows Media Player and put the visualizer on. Seriously, though, the game's concept is fun, but Symphony does it better without the deluge of choppy graphics and nonresponsive controls- and, most importantly, massive sound issues in the sound-based game.. I found this game as a follow-up recommendation to Hexcells that can likely be seen in many of the other reviews nearby. Having finished both games, I will echo that endorsement. RYB is even better than Hexcells, actually. The rules change more drastically as new elements are introduced; there's more variety. It's a shame more people haven't heard of this.. nice movie - but the pictures are crap; one of the "hackers" had opened a WordPress-webside manager?!

#### **Mobile LoveBeat “LoveBeat: Anytime” CBT started today!:**

Hello Dancers,

We start a closed beta test of LoveBeat: Anytime today.  
Join our test and send your opinions about the game!

- Test Schedule: February 1, 7 AM - February 8, 6 AM (UTC+0)
- You can download it by searching “LoveBeat: Anytime (Global)” on Google Play Store.
- The Error Finding Challenge is ongoing.

PLEASE NOTE! Only android devices can join this test. All in-game characters created during this CBT are deleted when this test ends.

Visit our official Facebook page to learn more: <https://www.facebook.com/LoveBeat.Anytime.Global/>

Thank you! 🎉

[Notice]Server Down Compensation:

Hello, heroes of Lodoss Islands.

Our server was brought down abnormally between 2019/03/21 00:30AM(UTC) to 03:30AM(UTC) due to unexpected technical issues.

To compensate, we will be providing "Artifact: New Starry Blessing(3day)" to all accounts until 2019/04/12 00:00.

Please note the item will be delivered to the mailbox of first character you log in, so please make sure you log into the character you wish to receive the reward first.

We apologize for any inconveniences caused.

Thank you.. **Adapt or Perish: Out of beta! Content Creators Wanted:**

The newest title from △○□× (Miwashiba), the creator of Alicemare, has just had their coming soon page go live on Steam.

1bitHeart is releasing this month on Playism and Steam, with extra events added to the original game released in Japanese.

1bitHeart is a unique and endearing adventure game about making friends.. **[End] Hotfix 05.11.2018: VIP Room “Halloween Night” bug:**

Hello, everyone.

We found a bug which effects of new VIP room “Halloween Night” doesn’t work, so we perform a maintenance to fix the bug as in following:

#### **Server downtime**

- November 5, 9 PM - 9:30 PM (Pacific Standard Time)

- November 6, 6 AM - 6:30 AM (Central European Time)

- November 6, 1 PM - 1:30 PM (Philippines Time)

- November 6, 2 PM - 2:30 PM (Korea Time)

\* The end time is subject to change depending on the situation.

\* This maintenance ended at 9:22 PM (PST).

---

Also, we'll give a compensation to users who bought the VIP room already as in following:

- If the room's period is expired, we give the room again.
- If you have it in your inventory, we extend the expiration date for days longer as same as the effects don't work.

We appreciate for your reports and apologize for the inconvenience.
